ASL NEWSLETTER

January 2007

- **In Memoriam: Leon Henkin.** Leon Albert Henkin, eminent logician and leader in mathematics education, died November 1, 2006. He was Professor of Mathematics Emeritus at the University of California, Berkeley, and had served as President of the Association for Symbolic Logic from 1962 through 1964.

Henkin was born on April 19, 1921 in Brooklyn. He received a B.A. in Mathematics and Philosophy at Columbia in 1941 and a Ph.D. in Mathematics under Alonzo Church at Princeton in 1947. From 1942–46 he served the U.S. war effort, finishing as head of the Separation Performance Group at Oak Ridge. After several academic positions at Princeton and the University of Southern California, he joined the Berkeley faculty in 1953 and in 1959 became the first Chair of the new Group in Logic and the Methodology of Science. He served as Acting Chair or Chair of the Department of Mathematics during 1966-68 and 1983-85.

Among his many wide-ranging contributions to logic, Henkin is perhaps best known for his “radically” new proof of Gödel’s completeness theorem, in which he introduced what became a fundamental technique of model theory—the use of so-called ‘Henkin constants’—and his work in algebraic logic, where he co-authored the monumental two-volume “Cylindric Algebras” with J.D. Monk and Alfred Tarski.

Henkin was known as an extraordinarily clear expositor—in lectures, books, and films—receiving the Chauvenet Prize of the Mathematical Association of America (MAA) in 1964. He was a creative and energetic leader in the field of mathematical education, winning the MAA’s first Gung-Hu Award in 1990 with the citation, “Few individuals of our era have had a greater impact on the health of American mathematics than has Leon Henkin.” Finally, Henkin was an enormously influential national leader in the efforts to boost the number of women and underrepresented minorities in the upper echelons of mathematics and was himself recently named the first recipient of Berkeley’s new annual award in this area, the Leon Henkin Citation for Distinguished Service.

- **The 2006 ASL Election.** The ASL membership has elected Penelope Maddy (UC Irvine) as President, Alex J. Wilkie (Oxford) as Vice President, C.T. Chong (Singapore) and Jouko Väänänen (Helsinki) to the Executive Committee, and Jeremy Avigad (Carnegie Mellon) and Bakhadyr Khoussainov (Auckland) to the Council. Their terms of office are for three years beginning January 1, 2007. The Nominating Committee consisted of Françoise Delon, Donald A. Martin, Yiannis Moschovakis, Toniann Pitassi, Michael Rathjen, Richard A. Shore (Chair), Albert Visser, and W. Hugh Woodin.
- **The 2006 Sacks Prize Awarded to M. Viale.** The ASL Committee on Prizes and Awards has selected Matteo Viale of the the University of Torino and the University of Paris 7 as the recipient of the 2006 Sacks Prize. Viale received his Ph.D. in 2006 from the University of Torino and the University of Paris 7, under the supervision of Alessandro Andretta and Boban Veličković. The Committee’s citation reads: “Viale’s thesis makes fundamental contributions to our understanding of the consequences of forcing axioms in the combinatorics of singular cardinals. In particular, it solves a well-known problem, by showing that the Proper Forcing Axiom implies the Singular Cardinals Hypothesis.” The prize consists of a cash award plus five years free membership in the ASL.
- **Shoenfield Prize.** The ASL invites nominations for the inaugural Shoenfield Prize for outstanding expository writing in the field of logic. This prize, to be awarded at the 2007 ASL European Summer Meeting, has been established by the ASL to honor the late Joseph R. Shoenfield for his many outstanding contributions to logic and to the ASL. Generations of logicians have especially valued Shoenfield’s expository gifts, and his writings provide models of lucidity and elegance. The fund on which the Prize is based is administered by the ASL and the award is made by the Association upon the recommendation of the ASL Committee on Prizes and Awards.

For general information about the Prize, visit <http://www.aslonline.org/info-prizes.html>.

There will be a Shoenfield Prize for a book and another one for an expository article, each to be awarded simultaneously every three years; the first Shoenfield Prize(s) will be awarded in 2007. The Shoenfield Prize for a book consists of a cash award of \$1,500; the Prize for an article is a cash award of \$1,000. Any book or article published during the six years prior to the award year is eligible. The deadline for nominations is March 1 of the year of the award.

Eligible books, articles, and papers for the 2007 Shoenfield Prize are those published in the period January 1, 2001 to December 31, 2006. The deadline for nominations is March 1, 2007. Nominations should be sent to the Chair of the ASL Committee on Prizes and Awards, John Steel (email: steel@math.berkeley.edu).

Those wishing to contribute to the Shoenfield Prize Fund may send contributions to the ASL office (ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, New York 12604). All such contributions are tax-deductible within the USA.
