INSTITUTIONAL IP ADDRESSES

Examples: 127.2.3.4 designates a single computer

To designate multiple, non-contiguous IPs, separate each with a comma as in:
127.0.0.1, 127.0.0.19, 127.0.8.43

To designate a class C block of IPs, use an asterisk in the last position, as in: 127.0.0*

To designate multiple class C ranges enter the first address, followed by a hyphen and the last address, as in:
127.0.0.1-127.0.3.255
