ASL NEWSLETTER

April 2003

- **2003 Sacks Prize.** The ASL invites nominations for the 2003 Sacks Prize for the most outstanding doctoral dissertation in mathematical logic. Nominations must be received by September 30, 2003.

The Sacks Prize was established to honor Professor Gerald Sacks of MIT and Harvard for his unique contribution to mathematical logic, particularly as adviser to a large number of excellent Ph.D. students. The Prize was first awarded in 1994 and became an ASL Prize in 1999. The Fund on which the Prize is based is now administered by the ASL and the selection of the recipient is made by the ASL Committee on Prizes and Awards. The Sacks Prize will consist of a cash award plus five years free membership in the ASL. No prize was awarded in 2002.

This year the Association has made several changes to the application procedure. Anyone who wishes to make a nomination for the 2003 Sacks Prize should consult the webpage http://www.aslonline.org/Sacks_nominations.html for the precise details of the application process. A brief summary is provided below.

Students who defend their dissertations (equivalent to the American doctoral dissertation) between October 1, 2002, and September 30, 2003, are eligible for the Prize this year. This is an international prize, with no restriction on the nationality of the candidate or the university where the doctorate is granted. Nominations should be made by the thesis adviser, and consist of: name of student, title and 1–2 page description of dissertation, date and location where the doctorate was awarded, letter of recommendation from the adviser, and an electronic copy of the thesis in .ps form, or the address of a web site from which an electronic copy in .ps, .dvi, or .pdf form can be downloaded. An independent second letter of recommendation is strongly encouraged. Nominations should be sent to the Committee Chair, Rod Downey; TeX or PostScript files sent as attachments by email to Rod.downey@vuw.ac.nz are preferred. The form of such letters and other pertinent details can be found at the web site above, and need to be read prior to submitting a nomination. Correspondence should be addressed to Rod Downey, School of Mathematical and Computing Sciences, Victoria University, PO Box 600, Wellington, New Zealand.

Those wishing to contribute to the Sacks Prize Fund may send contributions to the ASL office (ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, New York 12604). All such contributions are tax-deductible within the USA.

- **Access to Current JSL and BSL via Project Euclid.** Through the end of 2003, the ASL is providing free access to the full-text of current issues of *The Bulletin of Symbolic Logic* and *The Journal of Symbolic Logic* via Project Euclid (<http://projecteuclid.org>). Individual ASL members will continue to have access in future years; instructions will be published in the Newsletter and the Notices section of the *The Bulletin of Symbolic Logic*.
- **Perspectives in Mathematical Logic Volumes Available.** This series is now being published by the Association for Symbolic Logic, under the new name *Perspectives in Logic*. Owing to the generosity of Springer-Verlag, the former publisher of the series, the ASL has recently made the existing stock of certain books in the series available to the logic community at low prices, as has been done with the *Lecture Notes in Logic*. (Some books in the series will continue to be made available by Springer-Verlag and others will be reprinted by the ASL.) An order form for the volumes sold by the ASL can be found online at <http://www.aslonline.org/files/Perspectivesorderform.pdf>. This form also can be obtained by writing to the ASL Business Office.
