ASL NEWSLETTER

September 2007

- **In Memoriam: Gert H. Müller.** Gert Heinz Müller, a central figure in mathematical logic in Germany, died in Heidelberg on September 3, 2006 at the age of 83. He was Professor Emeritus of Pure Mathematics and Mathematical Logic at the University of Heidelberg.

Müller, a citizen of Austria, was born in Opava (Troppau) in Czechoslovakia. After graduating from high school, he served in the army during the last years of World War II. After the war he studied mathematics, astronomy, and philosophy at the University of Graz, where he received his Ph.D. in philosophy in 1947. Müller's career in mathematical logic started in Zürich at the ETH, where, from 1951 to 1960, he was assistant to Paul Bernays. Following an invitation of Friedrich K. Schmidt, in 1960 Müller moved to Heidelberg, where in 1962 he received the *venia legendi* and habilitation, and subsequently built up his well known logic group. From 1973 until his retirement in 1990 he held the chair of mathematical logic in Heidelberg. The years in Heidelberg were accompanied by numerous appointments as guest professor or guest researcher all over the world.

Müller's research was devoted to mathematical logic and the philosophy of sciences. Among Müller's most important services to the logic community were his efforts in the dissemination and critical evaluation of the increasingly specialized research achievements in the field. Müller was one of the founders and the driving force of the legendary  $\Omega$ -group in 1968/69. This group of logicians greatly influenced the field by two outstanding enterprises: the *Perspectives in Mathematical Logic*, an integrated series of monographs covering the main current research areas in mathematical logic, originally published by Springer and now published by the ASL as the *Perspectives in Logic*, and the  $\Omega$ -bibliography of Mathematical Logic edited by Müller in collaboration with Wolfgang Lenski.

- **The 2007 ASL Election.** At the end of this year the ASL will elect a Secretary-Treasurer, two members of the Executive Committee of the Council, and two members of the Council. All terms are for three years beginning January 1, 2008. The ballot will be sent to all ASL members with the November Newsletter. The 2007 Nominating Committee has nominated Charles Steinhorn (Vassar) as Secretary-Treasurer, Mirna Dzamonja (East Anglia) and Philip Scott (Ottawa) for the Executive Committee positions, and Verónica Becher (Buenos Aires) and Richard Zach (Calgary) for the Council positions. The Nominating Committee consisted of Greg Hjorth, Phokion Kolaitis, Steffen Lempp (Chair), Paolo Mancosu, Anand Pillay, and Albert Visser.

Additional nominations may be made by petition signed by 10 or more ASL members; such petitions should be received by the ASL Secretary-Treasurer (email [asl@vassar.edu](mailto:asl@vassar.edu) or ASL, Box 742, Vassar College, 124 Raymond Ave., Poughkeepsie, N.Y. 12604, USA) no later than November 1, 2007. In a contested election, each candidate has the opportunity to make a 100-word statement to be distributed with the ballot.

- **Inaugural Shoenfield Prize Winners.** Upon the recommendation of the ASL Committee on Prizes and Awards, the winners of the first Shoenfield Prizes for outstanding expository writing in the field of logic have been selected. The Shoenfield Prize for a book will be shared by John P. Burgess for *Fixing Frege* (Princeton University Press, 2005) and David E. Marker for *Model Theory: an Introduction* (Springer, 2002). The prize carries a cash award of \$1,500 to be shared by the two prize winners. The Shoenfield Prize for an article has been awarded to Bohuslav Balcar and Thomas Jech for "Weak distributivity, a problem of Von Neumann and the mystery of measurability," published in *The Bulletin of Symbolic Logic*, vol. 12, no. 2 (June 2006), pp. 241–266. This prize carries a cash award of \$1,000 to be shared by the winning co-authors. The Shoenfield Prizes will be awarded formally at a ceremony at the 2008 ASL Annual Meeting in Irvine, California.

The Shoenfield prize was established by the ASL to honor the late Joseph R. Shoenfield for his many

outstanding contributions to logic and to the ASL. Generations of logicians have especially valued Shoenfield's expository gifts, and his writings provide models of lucidity and elegance. For general information about the Prize, visit <http://www.aslonline.org/info-prizes.html>.

- **New Member Benefit: *The Review of Symbolic Logic*.** Beginning in 2008, individual ASL members will receive the new ASL journal, *The Review of Symbolic Logic*, as an additional benefit of membership. Publication of the *RSL* by Cambridge University Press will commence in June 2008, and members should receive the first issue shortly thereafter.

Joining *The Journal of Symbolic Logic* and *The Bulletin of Symbolic Logic* as the third official organ of the Association, the *RSL* will publish research papers in: philosophical logic and its applications; history and philosophy of logic; and philosophy and methodology of mathematics. The first heading covers all areas of philosophical logic, plus applications of these logics in such fields as computer science, linguistics, game theory and decision theory, formal epistemology, cognitive science, and artificial intelligence. The second is intended to include the history of philosophy of logic, an area that overlaps substantially with what is often called 'history of analytic philosophy'. The third area includes both the philosophy of mathematics and methodological studies of mathematical practice, past and present.

For more information about the *RSL*, including a complete listing of the its founding Editors and Advisory Board, visit <http://www.aslonline.org/journals-review.html>.

- **ASL Newsletter via Email in September 2008.** Beginning in September 2008, the ASL Newsletter will be sent by email to all members for whom the ASL has email addresses and who do not specifically request to be sent the printed version. Details on how to exercise this "opt out" privilege and to verify that the email address that the ASL has is correct will be distributed with the 2008 membership renewal form and in future Newsletter mailings.
- **Call for Proposals: 2010 Annual Meeting.** The ASL Committee on Meetings in North America requests proposals for the 2010 ASL Annual meeting, to be held sometime in the first five months of 2010. The committee seeks a university somewhere in North America and a local committee to host the meeting and handle the local arrangements. The ASL meetings ordinarily cycle geographically in the pattern: East (Gainesville 2007), West (Irvine 2008), Midwest (Notre Dame 2009). Thus, for 2010 the committee seeks a location in the East. Any reasonable proposal, however, will be considered. For more information, interested parties should contact the Committee Chair, Deirdre Haskell (email: [haskell@math.mcmaster.ca](mailto:haskell@math.mcmaster.ca)) no later than November 1, 2007.
- **Call for Proposals: 2009 AMS-ASL Joint Special Session.** The ASL Committee on Meetings in North America requests proposals for an AMS-ASL Joint Special Session to be held at the Joint Mathematics Meetings in Washington, DC, January 7–10, 2009. Proposals or requests for further information should be sent to the Committee Chair, Deirdre Haskell (email: [haskell@math.mcmaster.ca](mailto:haskell@math.mcmaster.ca)). The deadline for receipt of proposals is January 23, 2008.
- **Cambridge University Press New Publisher of ASL Books.** Cambridge University Press became the official publisher for the ASL book publishing program, effective October 1, 2006, replacing A.K. Peters, Ltd. All ASL books published by A.K. Peters prior to October 1, 2006 will continue to be marketed and made available by that publisher. For more information about the ASL book publishing program, visit <http://www.aslonline.org/books.html>.
